The Challenge

As a successful real estate agent, Susan Gucci understands the importance of being available to her clients. Her biggest challenge is that she spends most of her time away from the office without access to the internet.

The Solution

A [Rogers Rocket™ mobile internet stick](#) was the answer to Susan's challenges. Once connected to her laptop, she immediately saw three dramatic benefits:

“ My Rocket mobile internet stick gives me the freedom to work from anywhere and has become my essential tool. I never leave home without it! ”

1 Connect anytime, anywhere

Susan can now work from virtually anywhere. The Rocket stick instantly gives her a secure and reliable mobile internet connection, and fast download speeds. Wherever her job takes her, Susan knows she always has access to her email and the internet.

2 Take your office with you

With her Rocket stick, Susan can spend more time at the family cottage and still be accessible to her clients through the internet. Her Rocket stick gives her the freedom to prepare contracts, send listings and advise her clients from almost any location. She can also spend more quality time with her family and no longer worries about neglecting her emails or work piling up.

3 Turn downtime into uptime

The Rocket stick has become one of Susan's favourite tools at open houses. During slow periods between visitors, Susan can now check her email and follow-up with clients. When open house visitors don't see what they're looking for, Susan shows them other properties online that might be better suited to their needs. She's now able to turn downtime into productive time, and her clients are really seeing the benefits.

The Rogers Rocket mobile internet stick

- Connect virtually anywhere your business takes you with a secure and reliable mobile internet connection
- Fast download speeds of up to 21 Mbps on the Rogers HSPA+ wireless network
- No need to waste time searching for a public hotspot or Wi-Fi – simply plug in and connect
